INFORMATION AND SUPPORT FOR PARENTS

I WOULD LIKE INFORMATION ABOUT ASD/COMMUNICATION AND INTERACTION DIFFICULTIES

We work closely with parents to understand each student's unique strengths and needs. Together, we create supportive strategies that promote confidence, inclusion, and success for students with ASD or social communication differences, ensuring they thrive both academically and socially.

I WOULD LIKE INFORMATION ABOUT ADHD/BEHAVIOUR

Our collaborative approach with families ensures that students with ADHD or ADD receive understanding, structure, and strategies that help them reach their full potential. We celebrate their creativity and energy while supporting focus, organisation, and wellbeing across all aspects of school life.

I WOULD LIKE INFORMATION ABOUT MENTAL HEALTH SUPPORT

We believe wellbeing underpins success. By working in partnership with parents, we nurture emotional resilience and provide access to a range of supportive resources. Our goal is to create a caring environment where every student feels valued, understood, and empowered to flourish.

REFERRALS & THE 'GRADUATED APPROACH'

For all Community Paediatrics referrals, a Graduated Approach must be followed by school prior to submitting paperwork. This involves 2 cycles of 'Assess, Plan, Do, Review' with targets being set and adjusted as necessary, over a period of at least 16 weeks.

All referrals to paediatrics must demonstrate a child is having difficulties in 2 or more settings (usually school & home) in order for it to be triaged and accepted onto the waiting list.

Current waiting list times vary between counties, with the average waiting time now 2 years. Clicking on the graphic below will take you to the Graduated Approach in action at QEHS

USEFUL PARENTING COURSE

We recommend this free online course to all parents - 'understanding your teenager's brain' (click to access). Use the school postcode DN21 2ST for free access
